THE PIP BOOKS

Bedtime stories for children walking through divorce

by Chuck Foreman

THE STORY BEHIND THEM

The Pip books started as bedtime stories. During my divorce, when none of us knew how things would turn out, I'd lie in bed with my son Charlie and tell him he was a caterpillar — and that one day, when all of this was over, he'd be a butterfly. No kid going through divorce should feel alone in it. My son learned to read on these books.
